---

## PROFESSIONAL SUMMARY

Software Engineer and CS Master's graduate from UPenn with production frontend and full-stack engineering experience, following 6 years as an Urban Planner at NYC Department of City Planning. Proven track record in building scalable UI component frameworks, automated data pipelines, and data-intensive web applications using Python, JavaScript/TypeScript, React, Node.js, and SQL.

## EDUCATION

**University of Pennsylvania — Master's, Computer Science + AI Certificate | GPA: 3.70 | Jan 2023 – May 2026**

Coursework: Data Structures, Computer Systems, Big Data Analytics, AI, Natural Language Processing, Gen AI

**New Jersey Institute of Technology — M.S. Urban Studies (GPA: 3.85) | B.Arch. Architecture (GPA: 3.83) | Sep 2013 – Dec 2018**

## PROFESSIONAL EXPERIENCE

**Datadog — Software Engineering Intern | New York, NY | Jun 2025 – Aug 2025**

- Architected production React/TypeScript UI components for telemetry visualization (metrics, logs, traces) with Redux state management.
- Standardized query-building experiences across core telemetry products by migrating legacy query editors to a shared component framework.
- Improved frontend maintainability, component reusability, and code modularity across high-throughput monitoring dashboards.

**New York City Department of City Planning — Urban Planner | New York, NY | Jun 2019 – Jan 2025**

- Managed city-wide spatial data analysis using Python (Pandas, GeoPandas, SQL) and GIS tools to evaluate land-use policy impacts.
- Built interactive GIS visualization web tools and dashboards, empowering cross-functional teams with data-driven decision making.
- Communicated complex land-use proposals to executive leadership and public stakeholders through interactive data visualizations.

**University of Pennsylvania — Teaching Assistant | Remote | Jan 2024 – Dec 2024**

- Mentored 100+ graduate CS students in Data Structures, Algorithms, and Software Engineering design patterns, leading weekly recitations.

**Interboro Partners — Urban Designer | New York, NY | May 2018 – Feb 2019**

- Developed digital engagement tools and interactive materials for community planning projects.

**The Metropolitan Museum of Art — Research Intern | New York, NY | May 2016 – Oct 2016**

- Researched and audited museum collection database records for curatorial documentation and symposium logistics.

## PROJECTS

• **ZR-Explore: NYC Zoning Navigator – 3D Web App** | [GitHub](#) | [View Project](#)

Full-stack 3D geospatial web app (React, Three.js, Mapbox, FastAPI) with RAG assistant for zoning envelope calculations.

• **Volunteer Management System – Full-Stack PWA** | [GitHub](#) | [View Project](#)

Full-stack PWA (Next.js, Node.js, PostgreSQL) with RESTful APIs, automated CSV pipelines, and offline-first client caching.

• **Nutri-Score Prediction – Machine Learning Model** | [GitHub](#)

End-to-end ML data pipeline (PyTorch, Scikit-learn) processing 1M+ records with feature extraction and model benchmarking.

## SKILLS

**Languages & Databases:** Python, JavaScript/TypeScript, Java, C/C++, SQL, PostgreSQL

**Frameworks & Tools:** React, Next.js, Node.js, FastAPI, Redux, PyTorch, Scikit-learn, Docker, Git, REST APIs, ETL Pipelines
